A revised new edition of this comprehensive critical care nursing text, developed with the Australian College of Critical Care Nurses (ACCCN). This second edition of ACCCN's Critical Care Nursing has been fully revised and updated for critical care nurses and students in Australia and New Zealand. As well as featuring the most recent critical care research data, current clinical practice, policies, procedures and guidelines specific to Australia and New Zealand, this new edition offers new and expanded chapters and case studies. The ultimate guide for critical care nurses and nursing students alike, ACCCN's Critical Care Nursing 2e has been developed in conjunction with the Australian College of Critical Care Nurses (ACCCN). As with the first edition, the text in ACCCN's Critical Care Nursing 2e reflects the expertise of ACCCN's highly-qualified team of local and international critical care nursing academics and clinicians. This authoritative nursing resource takes a patient-centred approach, encouraging practising critical care nurses and students to develop effective, high-quality critical care nursing practice. ACCCN's Critical Care Nursing 2e outlines the scope of critical care nursing, before detailing the core components and specialty aspects of critical care nursing, such as intensive care, emergency nursing, cardiac nursing, neuroscience nursing and acute care. Specific clinical conditions such as emergency presentations, trauma, resuscitation, and organ donation are featured to explore some of the more complex or unique aspects of specialty critical care nursing practice. expanded chapters for cardiovascular, respiratory and neurological content new chapters on Quality and Safety; Recovery and Rehabilitation; Psychological care; and Obstetric emergencies new case studies elaborate on relevant care issues critiques of recent research publications explore related topics practice tips highlight areas of care particularly relevant to daily clinical practice learning activities support knowledge, reflective learning and understanding

The only question-based CAPA and CPAN exam review available, Certification Review for PeriAnesthesia Nursing, 3rd Edition is written by the American Society of PeriAnesthesia Nurses (ASPAN) -- the leading organization for perianesthesia nursing education, practice, standards and research. A total of 600 multiple-choice review questions includes case study and clinical application questions, answers, comprehensive rationales, and references to current research. Questions are updated to reflect the latest standards of practice and ABPANC's examination blueprints. From Barbara Putrycus and Jacqueline Ross, this ASPAN practice tool helps you review the core knowledge and essential skills you need for in-hospital or ambulatory certification. It has come to our attention that that there are errors in the 3rd edition of ASPAN/Putrycus/Ross: Certification Review for Perianesthesia Nursing. Those errors have now been corrected. Please contact Customer Service at 1-800-545-2522 and mention part number 9996090566 to receive the corrections. We sincerely apologize for any problems this may have caused. UNIQUE! Review is based on the latest CPAN and CAPA examination blueprints, preparing you for the four core areas of knowledge tested: physiological, behavioral and cognitive, safety, and patient advocacy. Essential core concepts and cross references to ASPAN's PeriAnesthesia Nursing Core Curriculum, 2nd Edition, are listed in the beginning of each chapter. Case study and clinical application questions include answers, correct answer rationales, and individual rationale references for each question. Chapters are broken into sets, with at least 20 multiple-choice questions included in each set. Convenient index is organized by question number rather than page number. Questions are revised or completely new to reflect the latest standards of practice and ABPANC's examination blueprints. Updated rationales and references are provided. New format features answers and rationales after each set of questions and also provides an answer key for all chapters at the end of the book. A chapter outline is included at the beginning of every chapter, and thumb tabs help you navigate more easily through the book.

This landmark text is the key resource for nurses working in the field of palliative care. Edited by renowned nursing experts, and written by a dynamic team of internationally known authorities in nursing and palliative medicine, the Oxford Textbook of Palliative Nursing covers the gamut of principles of care from the time of initial diagnosis of a terminal disease to the end of a patient's life and beyond. The text is distinctively developed to highlight the nurse's vital role as part of an integrated palliative care team. Various care settings are discussed including the hospital, ICU, home care, and hospice. Chapters focus on the practical aspects of nursing care, including symptom assessment, patient teaching, family support, psychosocial aspects of palliation, and spiritual care. New to the fourth edition are chapters on the National Consensus Project for Quality Palliative Care Guidelines, palliative care of veterans, palliative care in rural settings, disaster situations, palliative care in Eastern Europe, and palliative care in the Philippines.

The Nursing Assistant: Essentials of Holistic Care teaches the knowledge and skills you need to become a nursing assistant. With a sharp focus on holistic care, this text will guide you in performing the procedures required of nursing assistants while integrating and considering patients' and residents' bodies, minds, and spirits. Through rich and visual, step-by-step procedures, you will learn the techniques necessary to work in a variety of healthcare settings, including long-term and acute care. Holistic care is at the center of this book's approach to nursing assisting. This innovative approach is illustrated in the Providing Holistic Care Framework, which embodies the meaning of holistic care and communicates the importance of meeting the needs of the whole person--body, mind, and spirit. Comprehensive procedures outline techniques for properly executing the responsibilities of a nursing assistant. With easy-to-follow instructions, professional photographs, and detailed illustrations, these procedures provide important information for the certification competency examination. Practice test questions, similar to those found on the certification competency examination, can be completed at the end of each chapter. These questions are accompanied by numerous reinforcement, critical thinking, and application activities and provide an opportunity to prepare for the certification competency examination. Practice questions are also available in the Study Guide and instructors presentations for PowerPoint. Each chapter is divided into sections, making it easy to review content in manageable chunks for maximum understanding. Review questions at the end of each section help reinforce the material to solidify your learning. Professional videos demonstrating procedures are available on EduHub. After viewing these videos, you will be better able to visualize the procedural steps you must master for the certification competency examination.
