This stunning volume illuminates the current moment of artists' engagement with books, revealing them as an essential medium in contemporary art. Ever innovative and predictably diverse in their physical formats, artists' books

occupy a creative space between the familiar four-cornered object and challenging works of art that effectively question every preconception of what a book can be. Many artists specialize in producing self-contained art projects in the form of books, like Ken Campbell and Susan King, or they establish small presses, like Simon Cutts and Erica Van Horn's Coracle Press or Harry and Sandra Reese's Turkey Press. Countless others who are primarily known as sculptors, painters, or performance artists carry on a parallel practice in artists' books, including Anselm Kiefer, Annette Messager, Ed Ruscha, and Richard Tuttle. *Artists and Their Books / Books and Their Artists* includes over one hundred important

examples selected from the Getty Research Institute 's Special Collections of more than six thousand editions and unique artists ' books. This volume also presents precursors to the artist ' s book, such as Joris Hoefnagel ' s sixteenth-century calligraphy masterpiece; single-sheet episodes from Albrecht D ü rer ' s Life of Mary, designed to be either broadsides or a book; early illustrated scientific works; and avant-garde publications. Twentieth-century works reveal the impact of artists ' books on Pop Art, Fluxus, Conceptualism, feminist art, and postmodernism. The selection of books by an international range of artists who have chosen to work with texts and images on paper provokes new inquiry

into the nature of art and books in contemporary culture.

Drawing on untapped

aggregating a wide range of

existing published sources,

this book recalibrates the

understanding of women

artists' roles, outputs and

receptions in London during

what was indubitably a vibrant

and innovative period in the

history of British art, and in

which the work of their male

contemporaries is so well

understood. The book takes its

starting point from Alicia

Foster's article "Gwen John's

Self-Portrait: Art, Identity and

Women Students at the Slade

School," published in 2000,

where the expression "a

talented and decorative group"

was coined to describe

common attitudes towards

women artists in the late 19th

and early 20th century

London. This pejorative

attribution strongly implied a

status less significant to that of

their male counterparts. The

author challenges this

statement's basic tenet by

casting a wide net in

examining women's art

education from the Slade

the role of its graduates within

a selection of London's

also reconstructs 'from

Meskimmon asks why women artists were left out of the canon of German modernism, tracing the reasons to the construction of a unified (male) history of art that in effect denied women a voice.

The book is an effort to reconceive the period's art history and the perspective of the Weimar woman artist.

The authors of *After the Revolution* return with an incisive study of the work of contemporary women artists. In *After the Revolution*, the authors concluded that "The battles may not all have been won . . . but barricades are gradually coming

down, and work proceeds on all fronts in glorious profusion." Now, with *The Reckoning*, authors Heartney, Posner, Princenthal, and Scott bring into focus the accomplishments of 24 acclaimed international women artists born since 1960 who have benefited from the groundbreaking efforts of their predecessors. The book is organized in four thematic sections: "Bad Girls" profiles artists whose work represents an assault on conventional notions of gender and racial difference. "History Lessons" offers reflections on the self in the context of history and globalization. "Spellbound" focuses on women's embrace of the irrational, subjective, and surreal, while "Domestic Disturbances" takes on women's conflicted relationship to home, family, and security. Written in lively prose and fully illustrated throughout, this book gives an informed account of the wonderful diversity of recent contemporary art by women. "An indispensable contribution to the literature on contemporary art by

women." (Whitney Chadwick, author of *Women, Art and Society*) "In the 2007 book *After the Revolution: Women Who Transformed Contemporary Art*, [the authors] set a new standard in documenting and evaluating the work of a dozen key women artists, spanning generations between the 1960s to the 2000s. . . The beat goes on with the appearance of *The Reckoning*, written by the same authors in the same accessible scholarly style, but reflecting important historical changes over the past decade and more. In line with the increased presence of women in mainstream art, the book includes twice as many artists as its predecessor. And its global reach has expanded vastly, stretching from Europe and the Americas to Africa and China." (Holland Cotter, *The New York Times*)

Independent The women who shaped and were erased from our history. *Forgotten Women* is a new series of books that uncover the lost herstories of influential women who have refused over hundreds of years to accept the hand they've been dealt and, as a result, have formed, shaped and changed the course of our futures.

The Artists brings together the stories of 48* brilliant woman artists who made huge yet unacknowledged contributions to the history of art, including Camille Claudel, the extraordinarily talented sculptor who was always unfairly overshadowed by her lover, Rodin; Baroness Elsa von Freytag-Loringhoven, who

has been claimed as the true originator of Marcel Duchamp's Fountain; and Ana Mendieta, the Cuban refugee who approached violence against women through her performance art before her own untimely death. With chapters ranging from Figurative to Photography, and Craft to Conceptual, this is an alternative guide to art history that demonstrates the broad range of artistic movements that included, and were often pioneered by, female artists who have been largely overlooked. *The number of Nobel-prize-winning women.

A chronological introduction to women artists throughout history, this book provides a rich understanding of key female artists from the Baroque to the present day. In 1971, in an essay that has now become one of the touchstones of feminist art history, Linda Nochlin raised the question heard round the world: "Why have there been no great women artists?" Since the 1970s, as a result of this kind of consciousness-raising, the feminist discourse around art has expanded, addressing forms of activism, the idea

of a feminist aesthetic, the female body, sexuality, and representation more largely. The reframing of female contributions to the history of art is still ongoing, and this new addition to the Art Essentials series draws attention to some of its key dimensions. Focusing on fifty diverse women artists from Artemisia Gentileschi through Judy Chicago, Ana Mendieta, and the Guerrilla Girls to Barbara Kruger, Cindy Sherman, and Mona Hatoum, this book equips readers with an understanding of feminist art, as well as an appreciation of its most important figures. This latest addition to the Art Essentials series documents women artists in context to offer readers a rich understanding of key female artists from the Baroque to the present

day.

Women in Science Simon and Schuster

A dazzlingly original and ambitious book on the history of female self-portraiture by one of today's most well-respected art critics. Her story weaves in and out of time and place. She's Frida Kahlo, Lois Mailou Jones and Amrita Sher-Gil en route to Mexico City, Paris or Bombay. She's Suzanne Valadon and Gwen John, craving city lights, the sea and solitude; she's Artemisia Gentileschi striding

through the streets of Naples and Paula Modersohn-Becker in Worpswede. She's haunting museums in her paint-stained dress, scrutinising how El Greco or Titian or Van Dyck or Cézanne solved the problems that she too is facing. She's railing against her corsets, her chaperones, her husband and her brothers; she's hammering on doors, dreaming in her bedroom, working day and night in her studio. Despite the immense hurdles that have been placed in her way, she sits at her easel, picks up a mirror and paints a self-portrait because, as a subject, she is always available. Until the twentieth century, art history was, in the main, written by white men who tended to write about other white men. The idea that women in the West have always made art was rarely cited as a possibility. Yet they have - and, of course, continue to do so - often against tremendous odds, from laws and religion to the pressures of family and public disapproval. In *The Mirror and the Palette*, Jennifer Higgie introduces us to a cross-section of women artists who embody the

fact that there is more than one way to understand our planet, more than one way to live in it and more than one way to make art about it. Spanning 500 years, biography and cultural history intertwine in a narrative packed with tales of rebellion, adventure, revolution, travel and tragedy enacted by women who turned their back on convention and lived lives of great resilience, creativity and bravery.
