The American Lab Penguin

Comparing major league players has always been a popular topic among baseball fans. Debating the strengths and weaknesses of such greats as Joe DiMaggio and Ted Williams, Babe Ruth and Hank Aaron, Willie Mays and Mickey Mantle, or Tom Seaver and Greg Maddux continues to stir up controversy among fans eager to champion their heroes. In *Baseball's Top 10*, Bob Kuenster has compiled a ranking of the game's best players by position, highlighting the achievements of nearly 300 individuals. In addition to the top 10, Kuenster includes Honorable Mentions—players who were considered but didn't make the final list—and Dishonorable Mentions—players who were left off the rankings due to alleged steroid and performance enhancing drug use. Drawing upon original interviews conducted by the author, this ranking reveals the best players in major league history as seen through the eyes of former players, managers, and announcers. Player entries include biographical information, individual achievements, stats, and quotes. Organized by position—first base, second base, third base, shortstop, left field, center field, right field, catcher, designated hitters, multi-position players, right-handed starting pitchers, left-handed starting pitchers, and closers—280 outstanding players made the cut as the most elite pitchers, hitters, and fielders in MLB history. *Baseball's Top 10* features interviews with some of baseball's greatest personalities—including players who have since passed, such as Al Lopez, Bob Feller, Stan Musial, Lou Boudreau, Andy Pafo, Ron Santo, Harry Caray and Harry Kalas. With over 50 photographs and a comprehensive list of suggested titles for further reading, this book is sure to interest baseball fans and historians who love to debate the many outstanding players who have appeared in the major leagues.

Lapland HarperCollins Christian Publishing

Barely twenty-one, Wyoming McCord has already killed several men. He chalks it up to being a poor, grub-line riding cow puncher who got himself in the wrong place at the wrong time, getting himself in trouble by being caught up in other people's business. McCord has been making his own way since his mother died, going from one grubstake to another. With nothing of his own but his horse and tack and the gun he wears low down on his right hip, McCord is heading to Arizona to get a start with a clean slate. He plans to find a job and stay put. But a stop in Santa Fe might just put a hitch in his plans. A chance encounter with a bewitching girl leaves him longing for a future rather than planning an escape. Annabelle Dixon is immediately attracted to the charming cowboy, but how can she hold with the constant presence of that big gun on his hip and all that it implies? And what chance does McCord have of winning the heart of a girl who believes him capable of murder?

Report from Ground Zero Pinnacle Books

One year before Jackie Robinson broke the color line in major league baseball in 1947, four black players joined the Cleveland Browns and Los Angeles Rams to become the first professional football players of African-American descent in the modern era. While blacks had played on professional teams in the early days of pro football, none had joined a team since 1934. In this book twelve players who began their careers from 1946 to 1955 not only reminisce about the violence they faced on and off the field, the segregated hotels and restaurants, and general hostility that comes with being a trailblazer, but also of white players and coaches who assisted and supported them at various stages of their lives. Among the oral histories presented here are those of such Hall of Famers Bill Willis, Joe Perry, and George Taliaferro.

Death Comes to Redhawk Simon and Schuster

Passion City Church founder Giglio takes his message about science and the Bible to kids in his first children's book that displays the majesty of creation with scientific findings, photography, and original illustrations. These 100 devotions encourage awe at God's creativity with in-depth coverage of all things science. Full color. 6 x 8.

Throwback Triumph Books

A deluxe baseball treasury unlike any other, complete with essays, photos, and player bios from The National Baseball Hall of Fame and Museum. Everyone dreams of Cooperstown. It's a hallowed name in baseball, for players as well as their fans. It's a house where legends live; it's everything that's great about the game. Never before has the National Baseball Hall of Fame and Museum published a complete registry of inductees with plaques, photographs, and extended biographies. In this unique, 75th anniversary edition, read the stories of every player inducted into the Hall, organized by position. Each section begins with an original essay by a living Hall of Famer who played that position: Hank Aaron, George Brett, Orlando Cepeda, Carlton Fisk, Tommy Lasorda, Joe Morgan, Jim Rice, Cal Ripken Jr., Nolan Ryan, and Robin Yount.

Are you who you were born to be? The trials and tribulations of growing from cook trainee to being a major player in building and selling seven fairly large companies. The journey is humorous, mentally and physically challenging, and very rewarding both personally and financially. Learning the art of people development was one of my greatest joys in life. I believe that I am who I was born to be, and I am very blessed for having made the journey.

Gridiron Gauntlet Triumph Books

The tragic events of September 11, 2001, forever altered the American landscape, both figuratively and literally. Immediately after the jets struck the twin towers of the World Trade Center, Dennis Smith, a former firefighter, reported to Manhattan's Ladder Co. 16 to volunteer in the rescue efforts. In the weeks that followed, Smith was present on the front lines, attending to the wounded, sifting through the wreckage, and mourning with New York's devastated fire and police departments. This is Smith's vivid account of the rescue efforts by the fire and police departments and emergency medical teams as they rushed to face a disaster that would claim thousands of lives. Smith takes readers inside the minds and lives of the rescuers at Ground Zero as he shares stories about these heroic individuals and the effect their loss had on their families and their companies. "It is," says Smith, "the real and living history of the worst day in America since Pearl Harbor." Written with drama and urgency, *Report from Ground Zero* honors the men and women who—in America's darkest hours—redefined our understanding of courage.

Weaving the brackish humor of Chuck Palahniuk's *Fight Club* with the empathy of Barbara Ehrenreich's *Nickel and Dimed*, J. R. Helton brings to life an obscured, all-too-often ignored slice of the American psyche in this unflinching memoir of blue-collar Texas. In the 1980s, somewhere in Austin, Helton was young, married, and jobless. After a few strung-out years trying to make it as a writer, he was caught in a cycle of drunken, coked-up nights, crashing on friends' couches and looking for money in the morning. Succumbing to the daunting reality of what it means to support both himself and a troubled marriage, he became a housepainter. He sold pumpkins on the side of the road, delivered firewood, ran a crew of illegal immigrants hauling railroad ties across the empty plains of Kansas, and then he painted even more. Despair is transformed into resilience as Helton insightfully narrates his wayward years, enduring hateful employers and mind-numbing manual labor. Along the way, the people toiling beneath the saccharine veneer of wealth that was the Reagan years are brought to vivid life: the ambitious and the lazy, the potheads and the racists, as well as Vietnam vets too shaken to hold a paintbrush and deadbeat fathers straining to pay child support. With intoxicating, blasé-faire sentiment, Helton shows that everyone—from the beauties at the rodeo to the lowest laborers—is tethered by a common desire to just pay the bills and balm the loneliness. A raw and moving account, *Bad Jobs and Poor Decisions* captures a microcosm of left-behind America that straddles a dangerous line between ruin and redemption.

The Life and Times of a Serial Restaurateur Rowman & Littlefield

Genuine fans take the best team moments with the less than great, and know that the games that are best forgotten make the good moments truly shine. This monumental book of the Denver Broncos documents all the best moments and personalities in the history of the team, but also unmask the regrettably awful and the unflinchingly ugly. In entertaining—and unsparing—fashion, this book sparkles with Broncos highlights and lowlights, from wonderful and wacky memories to the famous and infamous. Such moments include “Orange Monday” and the breathtaking play of John Elway, as well as the string of humbling losses in the Super Bowl and the disastrous early years, where four wins was a good season. Whether providing fond memories, goose bumps, or laughs, this portrait of the team is sure to appeal to the fan who has been through it all.

Baseball's Top 10 Simon and Schuster

Nine Lives to Eternity is a true chronicle of cheating death time and again. This inspirational and faith-driven human triumph details the aftermath of my many harrowing experiences and mishaps, any of which should have resulted in certain death. Each time, I was somehow incessantly saved by guardian angels. The numerous near-death experiences accounted for twenty-six fractured bones and rendered me unconscious on five separate occasions, yet somehow I lived to tell my compelling story of survival and triumph over death. By the release date of this book, the good Lord has allowed me to somehow, somehow survive up until and beyond the celebration of my fifty-fifth birthday. Trust me when I reiterate that my life hasn't been a painless journey while defeating death on a habitual basis. Beginning as a mere infant at the age of nine months old and then continuing through fifty-five years, I've cheated death again and again. During my life's journey, I've survived an unfathomable twenty-seven encounters with death. I've escaped death through seven different machinery and equipment mishaps. I've avoided horse or mule death challenges no fewer than five times. Although one of my life's greatest pleasures has always been motorcycling, I've paid a price by suffering through five singular accidents that should have terminated my life. Few in life could survive even one automobile crash, yet I've lived to describe three separate vehicular collisions. In addition, I've escaped death from toxic fumes twice and twice averted death threats while working within dangerous third world countries. I've even fallen from a rooftop, nearly crashed in an airplane, and lived through a poisoning, yet by the grace of God, I've failed to become a fatality statistic. I've often joked that for every day in which I don't read my own name within a newspaper obituary column that becomes a really good day for me. To survive so many brushes with death is difficult to absorb. My goal-driven ambitions have unfortunately brought me to the threshold of death numerous times. I've driven myself to limits that few would attempt. Early in life, I set a goal for myself to try and fit three lifetimes of experiences into my short time on this planet. As a youth, I never believed that I would survive beyond an age of forty years. Most certainly, my high-risk behaviors reduced my odds for a lengthy existence. As my life unfolded, the numerous encounters with death became staggering. Between the ages of nine months up until nine years, I faced death three times. From the ages of ten years through my nineteenth birthday, death crossed my pathway four more times. During my tumultuous twenties from the ages of twenty years through twenty-nine years, I survived eight separate death encounters. Between the ages of thirty years through thirty-nine years, my chances of death slowed down to two. By the ages of forty years through forty-nine years, the Grim Reaper visited me on three separate occasions. As I reached midlife, I discovered that the pace of my death engagements was increasing. From the ages of fifty years through fifty-five years, I'd already amassed five singular close encounters with death. Perhaps that assertion should come as no surprise. Since reaching my fifties, I'd done little to slow down or reduce my zest for life and risk-taking determination. Few adults when faced with their own midlife crisis will attempt such outlandish feats as mountain climbing to the summit of Devils Tower in Wyoming or riding a motorcycle nonstop for ten thousand miles or consulting in the midst of a war within the country of Afghanistan. I'm thankful for each and every day that I'm allowed the privilege of living. I try to give thanks and praise to my Lord every day for granting me the tenacity to overcome even the worst of survival odds. Through my strong faith and spirituality, and by never accepting defeat, I've been able to constantly repel the onset of death.

Facing Ted Williams Macmillan

When billions of pellet-sized spores are unleashed on our world, transforming humans into flesh-eating monsters who feed on those closest to them, Joe Burton discovers that it is the survival of the fittest when the invaders turn on each other, creating a deadly new threat. Original.

Review of Disaster Conditions Affecting Agriculture Simon and Schuster

Ryan Singleton is sick of home—sick of his dad ragging on him and the dullness of closing his eyes at the end of the day, knowing he's going to open them the next to the same monotonous thing. So he leaves home to become a bounty hunter. But that kind of life doesn't come easy. He tears through one of the biggest zero gravity races in the area to secure the money he needs to start his future, and then nearly winds up dead on his first bounty. Luckily for him, a mysterious woman named Jody, an elite bounty hunter herself, comes to his rescue and dangles the future he dreams of right in front of him. All that stands in his way is Heydrich Kralick—a rival

alien bounty hunter who hates him for besting him in that race. He ' s ruthless, wanted by the law, and obsessed. Ryan stands to gain prestige, money, a world of passion and adventure. All he stands to lose is his life.

"The Splendid Splinter," "Teddy Ballgame," "The Kid"—no matter the nickname, Ted Williams was one of the most accomplished hitters in baseball history. He was the last man to hit .400 in a single season, a 19-time All-Star, a two-time American League MVP, a two-time winner of the Triple Crown, and an inductee into the National Baseball Hall of Fame in 1966 . . . all while serving his country in World War II and the Korean War. Far from a conventional biography, *Facing Ted Williams* aims to offer a different perspective with testimonials from teammates and opponents alike, on how Williams was regarded among his peers. See Ted Williams through the eyes of pitchers struggling to put a fastball past his bat, the infielders and outfielders adjusting their positions in the hopes that they can fill the hole where a frozen rope might land, and the catchers strategizing a Williams at-bat, pitch-by-pitch. *Facing Ted Williams* provides riveting insights from many baseball legends, including Hall of Famer Bob Feller; 1956 World Series MVP Don Larsen; and 1952 American League MVP Bobby Shantz; as well as many others. Whether you ' re a Red Sox fanatic, a casual baseball fan, or perhaps just an admirer of the fabled war hero and slugger, this book is sure to be a fresh and compelling look at this classic baseball icon. Much like Williams himself, *Facing Ted Williams* is sure to be a home run for all walks of baseball fandom.

Blamestorming DIANE Publishing

"In *The American Lab*, former LLNL director Bruce Tarter captures the spirit of the Laboratory and its reflection of the broader world in which it thrived. He identifies the major themes that have characterized science and technology in the latter half of the twentieth century--the growth and decline of nuclear warheads, the unprecedented rise of supercomputing technology, laser systems, fusion, and mass spectrometry. He illuminates the Cold War dynamic from the participants' point of view--an unusual and valuable perspective on nuclear history. The story of the laboratory is a tale of three eras. Although the Lab took its research vision from European Edward Teller, its modus operandi came almost exclusively from namesake Ernest Lawrence and was subsequently invented in-house by its scientists and staff. During its first two decades the Lab's focus was almost entirely on nuclear weapons research and development, with a few other smaller enterprises that were technically related to the nuclear weapons activities. In the 1970s and 1980s, the Laboratory, along with many others in the Department of Energy complex, expanded into civilian pursuits that included energy, environment, biology, and basic science. A major program in laser science and technology became a cornerstone of this period. The third era was initiated by the end of the Cold War and saw the transformation of the traditional nuclear weapons activities into the stockpile stewardship program along with the rapid growth of projects that can be broadly characterized as homeland security. Tarter's history/memoir of the Lawrence Livermore National Laboratory, provides an insider's examination of nuclear science in the Cold War and the technological shift that occurred after the fall of the Berlin Wall."--Provided by publisher.

Nina Dolgoy leads her neighbours on a campaign to renovate the community pool, but the only way she can think to raise money is to rob a bank. Unfortunately, she isn ' t very good at it. In a part of town so beaten down that even prostitutes and drug dealers have written if off, Nina Dolgoy imagines that if the local pool wasn ' t boarded up, her little daughters could use it to burn off their wayward energy and avoid falling into utter degradation. So the bitterly self-proclaimed "welfare queen" leads her neighbours on a fundraising, pool-fixing community-improvement campaign that proves the sad old adage that no good deed ever goes unpunished. The only way Nina can think to raise money herself is by robbing a bank. Unfortunately, she isn ' t very good at it. Coincidentally, her brother, Frank, gets out of jail and robs one. The explosive events that are unleashed force Nina and the girls to flee for their lives, but their escape turns into a sublimely bizarre chase during which Nina somehow needs to pull the wool over everybody ' s eyes.

[Gordon ' s Game: Blue Thunder](#) Liveright Publishing

If you ' ve ever dreamt of building your own log cabin, or wondered if or how it could be done, you ' ll find the answers and inspiration here. Half personal narrative, half how-to, *A Home From The Woods* details the methods used for four different log cabin projects: Uncovering and Restoring A Standing Cabin; A Hand-hewn Cabin; Building with Rounded Logs; and Taking Down and Recreating An Original Log Cabin. That straightforward advice is countered with a first person narrative as the author relates his young family ' s experiences and misadventures completing these projects. With little finances and less know-how, but plenty of determination and a little creativity, they proved again and again that if you long for that idyllic cabin of earth and wood, it can be achieved. And, even if you ' ll never set first foot in the forest you ' ll be entertained reading what some people will put themselves through for " the simple life " in the country.
