Nach einigen erfolgreichen Exekutionen, die Oberkommissar Beigel bei seinen Erhebungen fast zur Verzweiflung bringen, macht Tom bei der Bestrafung zweier jugendlichen Mörder, die zufällig seinen Weg kreuzen, einen entscheidenden Fehler, der die Ermittler auf seine Fährte bringt. The King Arthur Case is the seventh installment of Jean-Luc Bannalec's bestselling mystery series. The forest of Broceliande, with its picturesque lakes and castles, is the last remnant of the fairy kingdom, if Breton lore is to be believed. Innumerable legends spanning thousands of years are set here, including the tale of King Arthur and the Round Table. It seems to be an appropriate destination for Commissaire Dupin and his team to take a late summer field trip. But when the body of a historian turns up, Dupin is called upon to investigate in the brutal murder case. Before too long, there are more victims. What knowledge do the assembled scientists have about the most recent archaeological digs in the area? Where do they stand on the controversial decision to turn parts of the forest into an amusement park? And why is no one willing to talk? Even Nolwenn, Dupin's unshakeable assistant, is concerned. And that means trouble. Mysterious, ingenious, and suspenseful: Dupin's seventh case takes him and his team into the very heart of Brittany.

The Whitewashing of the Yellow Badge

Akashic Books

The central themes of *The Whitewashing of the Yellow Badge* are the attitudes, behavior and actions of gentile towards Jew in postwar Germany. The analysis focuses on antisemitism and developing philosemitism in all aspects of life in the Federal Republic - a focus neglected in earlier works and critically important to the understanding of Germany after 1945. Topics include: occupiers and Germans - the Jews caught in between; American military government and German antisemitism; antisemitic and philosemitic stereotypes among blue-collar and white-collar workers; and, the political role of antisemitism and philosemitism in the formative period of the Federal Republic. This detailed and informative text is essential reading for anyone interested in Jewish and/or German history in the twentieth century.

Österreich-Konzeptionen und jüdisches Selbstverständnis Alfred Music

A comprehensive historical survey of the Jewish presence in Central Europe from the seventeenth century to the Holocaust, *German-Jewish History in Modern Times* is a four-volume collective project by a team of leading scholars, offering a vivid portrait of Jewish

history. The series is sponsored by the Leo Baeck Institute, established in 1955 in Jerusalem, London, and New York for the purpose of advancing scholarship on the Jews in German-speaking lands. *Renewal and Destruction, 1918-1945* comprises the final volume and focuses on a period of intense change for European Jewry, culminating with the Holocaust. The first portion of Volume 4 explores the ambivalence experienced by Jews in the Weimar Republic, where political, economic, and cultural equality induced a profound sense of being German at the same time that a resurgent anti-Semitism, which associated Jews with the despised postwar order, helped to maintain Jewish consciousness. German Jews, though divided by differing political preferences, religious orientations, and social status, upheld a sense of their own identity even as they participated to an unprecedented degree in the intellectual and cultural life of the Republic, in its belles lettres, film, music, and theatre. This volume also traces the extraordinary flowering of German-Jewish communal, religious, and cultural life in Germany during a period of upheaval and experimentation. This "renaissance of Judaism" persisted and became more tenacious in the face of National Socialist moves to reverse emancipation and "ghettoize" Jewish culture. The institutions and ideas of the 1920s helped Jews to resist Nazi isolation and tyranny through a remarkable commitment to their own communal organizations as well as to the values of both German and Jewish culture. Yet, finally, the process of economic impoverishment, forced emigration, and physical violence during the Nazi era put an end to the rich historical experience of German Jewry. Carefully researched and accessible to general readers, this fourth volume of *German-Jewish History in Modern Times* is an indispensable resource for understanding the complex and immensely fruitful role that German Jews played in the history of Central Europe.

Dan Baum is a gun fanatic. He is also Jewish Democrat who grew up in suburban New Jersey. In *Gun Guys*, he takes us on a guided tour of gun stores and gun shows, shooting ranges and festivals, contests and auctions, trying to figure out what draws so many of us to guns in the first place. Is it just part of being American? Introducing a wide cast of characters, Baum shows both sides of the gun culture in America, bringing an entire world vividly to life, and in doing so helping to find a middle ground in the gun debate, where actual conversation can take place.

Alfred Döblin Minotaur Books

Döblin's texts, which range widely across contemporary discourses, are paradigms of the encounter between literary and scientific modernity. With their use of 'Tatsachenphantasie', they explode conventional language, seeking a new connection with the world of objects and things.

This volume reassesses and reevaluates the uniquely interdisciplinary quality of Döblin's interdiscursive, factually-inspired poetics by offering challenging new perspectives on key works. The volume analyses not only some of Döblin's best-known novels and stories, but also neglected works including his early medical essays, political journalism and autobiographical texts.

Other topics addressed are Döblin's engagement with German history; his relation to medical discourse; his topography of Berlin; his aestheticisation of his own biography and his relation to other major writers such as Heine, Benn, Brecht and Sebald. With contributions in English and in German by scholars from Germany and the United Kingdom, the volume presents insights into Döblin that are of value to advanced researchers and to students alike.

“I can allow myself to write the truth; all the people for whom I have lied throughout my life are dead...” writes the heroine of Marlen Haushofer’s *The Wall*, a quite ordinary, unnamed middle-aged woman who awakens to find she is the last living human being. Surmising her solitude is the result of a too successful military experiment, she begins the terrifying work of not only survival, but self-renewal. *The Wall* is at once a simple and moving talk – of potatoes and beans, of hoping for a calf, of counting matches, of forgetting the taste of sugar and the use of one’s name – and a disturbing meditation on 20th century history.

Learning from Logistics Infinity Publishing

In the 19th century railroads and canals provided both structure and motor for city development. This role has been taken over today by the global flow of data and products, as the author argues. Flow of material and communication is the DNA of contemporary environments. This development has enormous and partially unfathomable implications for our city fabric. Logistics networks and their complex structure increasingly bear upon many urban spheres. Counter trends to the ubiquitous internet retail trade – to name one of the most palpable phenomena – are gaining momentum as well, exemplified by the criticism of labor conditions in e-commerce and the trend to buy regional products from local stores. The author describes the current development and its impact on architecture, landscape architecture and urbanism: Aspects such as today’s hypermobility of both products and people have repercussions in design work and create new paradigms for architecture and urban design. Concepts for the integration of these new issues are introduced by a number of exemplary urban design projects.
