Indians wryly admit that 'India grows at night'. But that is only half the saying, the full expression is: 'India grows at night... when the government sleeps', suggesting that the nation may be rising despite the state. India's is a tale of private success and public failure. Prosperity is, indeed, spreading across the country even as governance failure pervades public life. But how could a nation become one of the world's fastest-growing economies when it's governed by a weak, ineffective state? And wouldn't it be wonderful if India also grew during the day—in other words, if public policy supported private enterprise? What India needs, Gurcharan Das says, is a strong liberal state. Such a state would have the authority to take quick, decisive action, it would have the rule of law to ensure those actions are legitimate and finally, it would be accountable to the people. But achieving this will not be easy, says Das, because India has historically had a weak state and a strong society. About the Author Gurcharan Das is a well known author, commentator and public intellectual. He is the author of the much acclaimed *The Difficulty of Being Good*, and the international bestseller *India Unbound*, which has been translated into many languages and filmed by the BBC. His other works include the novel, *A Fine Family*, a book of essays, *The Elephant Paradigm*, and an anthology, *Three Plays*, consisting of *Larins Sahib*, *Mira* and *9 Jakhoo Hill*. Gurcharan Das writes a regular column for a number of Indian newspapers including the *Times of India* and occasional guest columns for *Newsweek*, *Wall Street Journal* and *Foreign Affairs*. Gurcharan Das graduated from Harvard University and was CEO of Procter and Gamble India before he took early

retirement to become a full time writer. He lives in Delhi.

A thorough and incisive introduction to contemporary India The story of the forging of India, the world's largest democracy, is a rich and inspiring one. This volume, a sequel to the best-selling India's Struggle for Independence, analyses the challenges India has faced and the successes it has achieved, in the light of its colonial legacy and century-long struggle for freedom. The book describes how the

Constitution was framed, as also how the Nehruvian political and economic agenda and basics of foreign policy were evolved and developed. It dwells on the consolidation of the nation, examining contentious issues like party politics in the Centre and the states, the Punjab problem, and anti-caste politics and untouchability. This revised edition offers a scathing analysis of the growth of communalism in India and the use of state power in furthering its cause. It also documents the fall of the National Democratic Alliance in the 2004 General Elections, the United Progressive Alliance's subsequent rise to power and the Indo-US Nuclear Deal that served to unravel the political consensus at the centre. Apart from detailed analyses of Indian economic reforms since 1991 and wide-ranging land reforms and the Green Revolution, this new edition includes an overview of the Indian economy in the new millennium. These, along with objective assessments of Jawaharlal Nehru, Indira Gandhi, Jayaprakash Narayan, Lal Bahadur Shastri, Rajiv Gandhi, Vishwanath Pratap Singh, Atal Bihari Vajpayee and Manmohan Singh, constitute a remarkable overview of a nation on the move.

This is a comprehensive, intelligible and interesting portrait of Ancient Indian History and Civilization from a national historical point of view. The work is divided into three broad divisions of the natural course of cultural development in Ancient India: (1) From the prehistoric age to 600 B.C., (2) From 600 B.C. to 300 A.D., (3) From 300 A.D. to 1200 A.D. The work describes the political, economic, religious and cultural conditions of the country, the expansionist activities, the colonisation schemes of her rulers in the Far East. Political theories and administrative organizations are also discussed but more stress has been laid on the religious, literary and cultural aspects of Ancient India. The book is of a more advanced type. It would meet the needs not only of general readers but also of earnest students who require a thorough grasp of the essential facts and features before taking up specialized study in any branch of the subject. It would also fulfil requirements of the candidates for competitive examinations in which

Ancient Indian History and culture is a prescribed subject.
