This book outlines the history of the Black International, a secret organisation, directly linked to the Vatican, which brought together the leaders of the Catholic committees in nine European countries. The organisation tried to stem the tide of liberalism, socialism and nationalism that threatened the Catholic Church at the end of the 19th century. The story of the origins, workings and ending of this International at times seems like a detective story. The book offers an extensive discussion of the influence of this organisation on the press policy and the international position of the Vatican. It also explores its impact on the development of militant Catholicism and, through its after-effects in the Union of Fribourg (1884-1891) on the emergence of social Catholicism in Europe. L'Internationale noire était une association secrète qui groupait les chefs de file des comités catholiques de neuf pays européens. Elle essaya de faire front contre les trois courants qui menaçaient l'Eglise catholique à la fin du XIXe siècle: le libéralisme, le socialisme et le nationalisme. Cette Internationale noire dépendait directement du Vatican. Analysant l'histoire de la naissance, du fonctionnement et de la dissolution de cette organisation secrète, le présent ouvrage ressemble quelquefois à un roman policier. Il accorde également une grande attention à l'influence exercée par ce réseau sur la politique de presse et sur la politique internationale du Vatican. Enfin, il évalue son impact sur le développement du catholicisme militant puis, à travers son prolongement dans l'Union de Fribourg (1884-1891), sur la percée du catholicisme social en Europe.

This volume illustrates the multiple ways in which epigraphy enables historical analysis of the postclassical polis across a world of geographically dispersed poleis. The collection of 16 papers looks at a variety of themes and aims to identify the postclassical polis both as a reality and as a constructed concept.
