e emperor Nero is etched into the Western imagination as one of ancient Rome's most infamous villains, and Tacitus' Annals have played a central role in shaping the mainstream historiographical understanding of this flamboyant autocrat. This section of the text plunges us straight into the moral cesspool that Rome had apparently become in the later years of Nero's reign, chronicling the emperor's fledgling stage career including his plans for a grand tour of Greece; his participation in a city-wide orgy climaxing in his publicly consummated 'marriage' to his toy boy Pythagoras; the great fire of AD 64, during which large parts of central Rome went up in flames; and the rising of Nero's 'grotesque' new palace, the so-called 'Golden House', from the ashes of the city. This building project stoked the rumours that the emperor himself was behind the conflagration, and Tacitus goes on to present us with Nero's gruesome efforts to quell these mutterings by scapegoating and executing members of an unpopular new cult then starting to spread through the Roman empire: Christianity. All this contrasts starkly with four chapters focusing on one of Nero's most principled opponents, the Stoic senator Thrasea Paetus, an audacious figure of moral fibre, who courageously refuses to bend to the forces of imperial corruption and hypocrisy. This course book offers a portion of the original Latin text, study aids with vocabulary, and a commentary. Designed to stretch and stimulate readers, Owen's and Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis and historical background to encourage critical engagement with Tacitus' prose and discussion of the most recent scholarly thought.

Ars Amatoria Cambridge University Press

The goal of this work is to present an up-to-date successor to Keuhner-Stegmann's *Ausführliche Grammatik der lateinischen Sprache*, taking into account new editions of Latin texts with better knowledge of the manuscripts, the publication and study of texts unknown in Keuhner-Stegmann's time, recent linguistic studies, and new methods and models in linguistics.

Memory in Ancient Rome and Early Christianity Holt Rinehart & Winston

The combination of portrait statue, monumental support, and public lettering was considered emblematic of Roman public space even in antiquity. This book examines ancient Roman statues and their bases, tombs, dedicatory altars, and panels commemorating gifts of civic beneficence made by the Augustales, civic groups composed primarily of wealthy ex-slaves. Margaret L. Laird examines how these monuments functioned as protagonists in their built and social environments by focusing on archaeologically attested commissions made by the Augustales in Roman Italian towns. Integrating methodologies from art history, architectural history, social history, and epigraphy with archaeological and sociological theories of community, she considers how dedications and their accompanying inscriptions created webs of association and transformed places of display into sites of local history. Understanding how these objects functioned in ancient cities, the book argues, illuminates how ordinary Romans combined public lettering, honorific portraits, emperor worship, and civic philanthropy to express their communal identities.

North American Cambridge Latin Course Unit 1 Student's Book Oxford University Press

Roman contract law has profoundly influenced subsequent legal systems throughout the world, but is inarguably an important subject in its own right. This casebook introduces students to the rich body of Roman law concerning contracts between private individuals. In order to bring out the intricacy of Roman contract law, the casebook employs the case-law method--actual Roman texts, drawn from Justinian's Digest and other sources, are presented both in Latin and English, along with introductions and discussions that fill out the background of the cases and explore related legal issues. This method reflects the casuistic practices of the jurists themselves: concentrating on the fact-rich environment in which contracts are made and enforced, while never losing sight of the broader principles upon which the jurists constructed the law. The casebook concentrates especially on stipulation and sale, which are particularly well represented in surviving sources. Beyond these and other standard contracts, the book also has chapters on the capacity to contract, the creation of third-party rights and duties, and the main forms of unjustified enrichment. What students can hope to learn from this casebook is not only the general outlines and details of Roman contract law, but also how the jurists developed such law out of rudimentary civil procedures. An online teacher's manual is available for instructors; to access it, see page xxi of the Casebook.

Index Medicus Walter de Gruyter GmbH & Co KG

This work is a complete English translation of the Latin Etymologies of Isidore, Bishop of Seville (c.560 – 636). Isidore compiled the work between c.615 and the early 630s and it takes the form of an encyclopedia, arranged by subject matter. It contains much lore of the late classical world beginning with the Seven Liberal Arts, including Rhetoric, and touches on thousands of topics ranging from the names of God, the terminology of the Law, the technologies of fabrics, ships and agriculture to the names of cities and rivers, the theatrical arts, and cooking utensils. Isidore provides etymologies for most of the terms he explains, finding in the causes of words the underlying key to their meaning. This book offers a highly readable translation of the twenty books of the Etymologies, one of the most widely known texts for a thousand years from Isidore's time.

A Casebook on the Roman Law of Contracts OUP Oxford

This volume is the completely reset Second Edition of Jeanne Marie Neumann's *A College Companion* (Focus, 2008). It offers a running exposition, in English, of the Latin grammar covered in Hans H. Ørberg's *Familia Romana*, and includes the complete text of the Ørberg ancillaries *Grammatica Latina* and *Latin – English Vocabulary*. It also serves as a substitute for Ørberg's *Latine Disco*, on which it is based. As it includes no exercises, however, it is not a substitute for the Ørberg ancillary *Exercitia Latina I*. Though designed especially for those approaching *Familia*

Romana at an accelerated pace, this volume will be useful to anyone seeking an explicit layout of *Familia Romana*'s inductively-presented grammar. In addition to many revisions of the text, the Second Edition also includes new units on cultural context, tied to the narrative content of the chapter.

Commentaries on the Four Last Books of Moses Walter de Gruyter GmbH & Co KG

The purpose of this volume is to investigate scholastic culture in the Hellenistic and Roman eras, with a particular focus on ancient book and material culture as well as scholarship beyond Greek authors and the Greek language. Accordingly, one of the major contributions of this work is the inclusion of multiple perspectives and its contributors engage not only with elements of Greek scholastic culture, but also bring Greek ideas into conversation with developing Latin scholarship (see chapters by Dickey, Nicholls, Marshall) and the perspective of a minority culture (i.e., Jewish authors) (see chapters by Hezser, Adams). This multicultural perspective is an important next step in the discussion of ancient scholarship and this volume provides a starting point for future inquiries.

Squire BRILL

What and how do people remember? Who controls the process of what we call cultural or social memory? What is forgotten and why? People's memories are not the same as history written in retrospect; they are malleable and an ongoing process of construction and reconstruction. Ancient Rome provided much of the cultural framework for early Christianity, and in both the role of memory was pervasive. Memory in Ancient Rome and Early Christianity presents perspectives from an international and interdisciplinary range of contributors on the literature, history, archaeology, and religion of a major world civilization, based on an informed engagement with important concepts and issues in memory studies. Moving beyond terms such as 'collective', 'social', and 'cultural memory' as standard tropes, the volume offers a selective exploration of the wealth of topics which comprise memory studies, and also features a contribution from a leading neuroscientist on the actual workings of the human memory. It is an important resource for anyone interested in Roman antiquity, the beginnings of Christianity, and the role of memory in history.

On the Track of the Books Cambridge University Press

From two incredible rising talents comes the fantasy graphic novel Molly Knox Ostertag calls "instantly compelling." Aiza has always dreamt of becoming a Knight. It 's the highest military honor in the once-great Bayt-Sajji Empire, and as a member of the subjugated Ornu people, Knighthood is her only path to full citizenship. Ravaged by famine and mounting tensions, Bayt-Sajji finds itself on the brink of war once again, so Aiza can finally enlist in the competitive Squire training program. It 's not how she imagined it, though. Aiza must navigate new friendships, rivalries, and rigorous training under the unyielding General Hende, all while hiding her Ornu background. As the pressure mounts, Aiza realizes that the "greater good" that Bayt-Sajji 's military promises might not include her, and that the recruits might be in greater danger than she ever imagined. In this breathtaking and timely story, Aiza will have to choose, once and for all: loyalty to her heart and heritage, or loyalty to the Empire.
