[Fun Facts about Space - Easy Read Astronomy Book for Kids | Children's Astronomy & Space Books](#) Rockridge Press

Space Books for Kids The latest bumper fact book from leading non-fiction author, Jenny Kellett, is the perfect addition to any mini astronomers space books collection. Illustrated with stunning high resolution images, The Huge Book of Space Facts for Kids will teach the whole family more about the amazing universe we are part of. There is nothing bigger than space. No one even knows quite how big it is, but one thing's for sure - it's huge. With something so massive there is naturally a lot of exciting stuff going on, and the mere thought of it can make our existence on Earth seem insignificant. In The Huge Book of Space Facts we take you on an intergalactic journey across each of the planets, the Moon, Sun, stars, galaxies, asteroids and more. Find out just how hot the Sun is, what the difference between a comet and a meteor is, and impress your friends with your new-found knowledge of our truly amazing Universe. Aimed at children aged 10 plus, this fascinating space book is broken up into multiple categories to make it easy to navigate to your favorite topic of space facts. The Universe Moon Facts Sun Facts Solar System Facts Mercury Facts Venus Facts Mars Facts Jupiter Facts Saturn Facts Uranus Facts Neptune Facts Satellite Facts Stars Facts Black Hole Facts Comets, Meteoroids, Dwarf Planets and Asteroids Galaxy Facts Astronaut Facts Example space facts - The first rockets were made 1,000 years ago in China. Only one side of the Moon is ever visible to Earth. It takes sunlight 12 minutes and 47 seconds to reach Mars. The Sun can cause tides on Earth, just like the Moon. The reason Venus is so bright in the sky is because the clouds are so dense that light bounces off of them, making it appear bright to us on Earth. ... and many, many more amazing space facts. Perfect as a gift, for school projects or for long car journeys, The Huge Book of Space Facts is a must-have in any astronomer's space books collection. Scroll up and buy today.

Brilliant, full-color photography and clear graphic organizers accompany accessible text for a reading experience that's out of this world.

Space Facts The Rosen Publishing Group, Inc

Now a Major Motion Picture from Director Sarah Polley, starring Rooney Mara, Claire Foy, and Jessie Buckley, with Ben Wishaw and Frances McDormand. INTERNATIONAL BESTSELLER "This amazing, sad, shocking, but touching novel, based on a real-life event, could be right out of The Handmaid's Tale." -Margaret Atwood, on Twitter "Scorching . . . a wry, freewheeling novel of ideas that touches on the nature of evil, questions of free will, collective responsibility, cultural determinism, and, above all, forgiveness." -New York Times Book Review, Editors' Choice One evening, eight Mennonite women climb into a hay loft to conduct a secret meeting. For the past two years, each of these women, and more than a hundred other girls in their colony, has been repeatedly violated in the night by demons coming to punish them for their sins. Now that the women have learned they were in fact drugged and attacked by a group of men from their own community, they are determined to protect themselves and their daughters from future harm. While the men of the colony are off in the city, attempting to raise enough money to bail out the rapists and bring them home, these women--all illiterate, without any knowledge of the world outside their community and unable even to speak the language of the country they live in--have very little time to make a choice: Should they stay in the only world they've ever known or should they dare to escape? Based on real events and told through the "minutes" of the women's all-female symposium, Toews's masterful novel uses wry, politically engaged humor to relate this tale of women claiming their own power to decide.

The Planets & Our Solar System Book For Kids Libraries Unlimited

From asteroids to zodiac constellations--500 amazing space facts for kids ages 8 to 12 Do you know a kid who wants to know all about space?
