This is a large atlas of civil war battleground maps as originally prepared by the Union brass. The maps are decent but the organization of the atlas is terrible. The maps are arranged in no particular order, and maps of battlegrounds from the Western campaign are put onto the same page as Eastern maps.

Although much historical attention has focused on the events in England and the key battles of

Edgehill, Marston Moor and Naseby, this was a conflict that engulfed the entirety of the Three Kingdoms and led to a trial and execution that profoundly shaped the British monarchy and Parliament. This beautifully presented atlas tells the whole story of Britain's revolutionary civil war, from the earliest skirmishes of the Bishops' Wars in 1639-40 through to 1651, when Charles II's defeat at ...

James McPherson didn't write the 'Atlas of the Civil War'. He did, however, write introductory essays to each year of the war, as well as prologues and epilogues. They're fantastic: well-written and -argued, with lavish full-page pictures, and although there's too little reflection on certain issues (e.g. the (il)legality of secession), that's simply not the point.
