Based on an empirical study of a corpus of 335 English illocutionary shell nouns, the book investigates the issue of

semantic compatibility between the meaning of these nouns and their complementation patterns, and between their semantic similarity and the similarity in the distribution of complementation patterns.

\_\_\_\_\_ Born in East Africa, Yusuf has few qualms about the journey he is to make. It never occurs to him to ask why he is accompanying Uncle Aziz or why the trip has been organised so suddenly, and he does not think to ask when he will be returning. But the truth is that his 'uncle' is a rich and powerful merchant and Yusuf has

been pawned to him to pay his father's debts. Paradise is a rich tapestry of myth, dreams and Biblical and Koranic tradition, the story of a young boy's coming of age against the backdrop of an Africa increasingly corrupted by colonialism and violence.

### Kauderwelsch-Sprachführer von Reise Know-How

Europa Editions

This unique and groundbreaking book is the result of 15 years research and syntheses over 800 meta-analyses on the influences on achievement in school-aged students. It builds a story about the power of teachers, feedback, and a model of learning and understanding. The research involves many millions of students and represents the largest ever evidence based research into what actually works in

---

schools to improve learning. Areas covered include the influence of the student, home, school, curricula, teacher, and teaching strategies. A model of teaching and learning is developed based on the notion of visible teaching and visible learning. A major message is that what works best for students is similar to what works best for teachers – an attention to setting challenging learning intentions, being clear about what success means, and an attention to learning

strategies for developing conceptual understanding about what teachers and students know and understand. Although the current evidence based fad has turned into a debate about test scores, this book is about using evidence to build and defend a model of teaching and learning. A major contribution is a fascinating benchmark/dashboard for comparing many innovations in teaching and schools.

“A delightful mix of grammar and growth, words and wonder.” – The Washington Post  
An entertaining exploration of the richness and relevance of the Latin language and literature, and an inspiring account of finding renewed purpose through learning something new and challenging  
After thirty-five

---

years as a book editor in New York City, Ann Patty stopped working and moved to the country. Bored, aimless, and lost in the woods, she hoped to challenge her restless, word-loving brain by beginning a serious study of Latin at local colleges. As she begins to make sense of Latin grammar and syntax, her studies open unexpected windows into her own life. The louche poetry of Catullus calls up her early days in 1970s New York, Lucretius elucidates her intractable drivenness and her attraction

to Buddhism, while Ovid's verse conjures a delightful dimension to the flora and fauna that surround her. Women in Roman history, and an ancient tomb inscription give her new understanding and empathy for her tragic, long deceased mother. Finally, Virgil reconciles her to her new life—no longer an urban exile but a rustic scholar, writer and teacher. Along the way, she meets an impassioned cast of characters: professors, students and classicists outside of academia who

keep Latin very much alive. Written with humor, heart, and an infectious enthusiasm for words, Patty's book is an object lesson in how learning and literature can transform the past and lead to an unexpected future. Paradise Whitaker House Hemda Horovitz is nearing the end of her life. As she lies in bed in Jerusalem, the present flickers in and out as memories from the past flood her thoughts: her childhood in the kibbutz spent under the disappointed gaze of her stern, pioneer

---

father; the lake that was her only solace; and her own two children, one whom she could never love and the other whom she loved too much. Avner, the beloved child, has grown up to be a heavy, anguished man, disillusioned by his work and trapped in a loveless marriage. When visiting his mother in hospital he witnesses an elegant couple's final poignant moments together; after the man's death Avner becomes obsessed with finding the woman, and a strange and delicate relationship unfolds. Dina, Hemda's daughter, has put aside her career in order to give her teenage daughter, Nitzan, the warmth she never received from her own mother. But Nitzan is withdrawing from her, and as Dina slides into despair she is overcome by a longing to adopt a child - a longing that, if fulfilled, may destroy her fragile family. Zeruya Shalev's electrifying new novel is at once a meditation on the state of modern Israel and a profound exploration of family, yearning, compromise and the insistent pull of the past.

Gifted with a mind that continues to impress the elders in his village, Ichmad Hamid struggles with knowing that he can do nothing to save his friends and family. Living on occupied land, his entire village operates in fear of losing their homes, jobs, and belongings. But more importantly, they fear losing each other. On Ichmad's

---

twelfth birthday, that fear becomes reality. With his father imprisoned, his family's home and possessions confiscated, and his siblings quickly succumbing to hatred in the face of conflict, Ichmad begins an inspiring journey using his intellect to save his poor and dying family. In doing so he reclaims a love for others that was lost through a childhood rife with violence and loss, and discovers a new hope for the future. Reminiscent of *The Kite Runner* and *One*

*Thousand Splendid Suns*, this is an uplifting read, which conveys a message of optimism and hope. [Collaborative Research in the Digital Humanities](#) Routledge Collaboration within digital humanities is both a pertinent and a pressing topic as the traditional mode of the humanist, working alone in his or her study, is supplemented by explicitly co-operative, interdependent and collaborative research. This is particularly true where computational

methods are employed in large-scale digital humanities projects. This book, which celebrates the contributions of Harold Short to this field, presents fourteen essays by leading authors in the digital humanities. It addresses several issues of collaboration, from the multiple perspectives of institutions, projects and individual researchers. *Analogy, Levelling, Markedness* Createspace Independent Publishing Platform This series provides

approachable, yet authoritative, introductions to all the major topics in linguistics. Ideal for students with little or no prior knowledge of linguistics, each book carefully explains the basics, emphasising understanding of the essential notions rather than arguing for a particular theoretical position. Understanding Semantics offers a complete introduction to linguistic semantics. The book takes a step-by-step approach, starting with the basic concepts and moving through

the central questions to examine the methods and results of the science of linguistic meaning. Understanding Semantics unites the treatment of a broad scale of phenomena using data from different languages with a thorough investigation of major theoretical perspectives. It leads the reader from their intuitive knowledge of meaning to a deeper understanding of the use of scientific reasoning in the study of language as a communicative tool, of the

nature of linguistic meaning, and of the scope and limitations of linguistic semantics. Ideal as a first textbook in semantics for undergraduate students of linguistics, this book is also recommended for students of literature, philosophy, psychology and cognitive science.

Die Sprachführer der

Kauderwelsch-Reihe

orientieren sich am typischen Reisealltag und vermitteln auf unterhaltsame Weise das

---

nötige Rüstzeug, um ohne lästige Büffelei möglichst schnell mit dem Sprechen beginnen zu können, wenn auch vielleicht nicht immer druckreif. Besonders hilfreich ist hierbei die Wort-für-Wort-Übersetzung, die es ermöglicht, mit einem Blick die Struktur und "Denkweise" der jeweiligen Sprache zu durchschauen. Das Buch enthält neben einer Fülle praktischer Tipps vor allem typische Gesprächssituationen und (so weit wie nötig) auch die wichtigsten Regeln der Grammatik. Der "Sprechführer" ist dabei so angelegt, dass man

möglichst schnell in die Lage versetzt wird, wirklich zu sprechen und kleine Unterhaltungen zu führen. Was über die Sprache, das Land und seine Bewohner gesagt wird, soll nicht nur informieren, sondern auch motivieren, damit das Lernen Spaß macht. Israel ist zwar klein, was seine Ausdehnung angeht, im Weltgeschehen ist es aber fast überall präsent. Wer mit offenen Augen nach Israel kommt, dem bietet sich ein ganz anderes Bild als das in den Medien, und vielleicht findet man auf seiner Reise etwas, das eigentlich das Ziel jeder Reise

sein sollte: Verständnis für das Land. Bei diesem Unterfangen kann das Erlernen von Hebräisch sehr weiterhelfen, denn wenn man sich die Mühe macht, einige Worte der Landessprache zu sprechen, wird das viele Türen öffnen: Man wird als Gast gesehen, und nicht nur als Tourist. Mit Aussprachebeispielen, um sich ausgewählte Wörter, Sätze und Redewendungen aus dem Buch anhören. Umfangreicheres Tonmaterial (Kauderwelsch Aussprachetrainer Hebräisch) separat als CD oder Download erhältlich.
