The Joint Commission requires that hospitals verify physician competence using performance data. Yet organizations often have little or no data related to the competency of low- and no-volume physicians. Medical staff leaders are therefore challenged to develop a strategy that guides the hospital's relationship with low- and no-volume providers, and medical staff services departments are challenged to establish systems to verify physician competence. This fully updated book offers the necessary tools and strategies for medical staff leaders and

professionals to manage the increasing number of
