The Murder of Jesus Canongate Books
Grace Triumphs over Law - The Scripture that Changed My Life is the story of one man's journey from living under the law to living under grace, from condemnation to salvation, and from darkness to light. While studying the Scriptures, the Holy Spirit brought clear understanding of the falsehood of his religion and the real truths found in God's Holy Word. We will examine hundreds of scriptural references and quotations to uncover the distinction between the old and new covenants (law and grace), demonstrating the promises and righteousness now available to all Christians through Jesus Christ our Lord. Examples from the law and its rituals are examined, explained, and shown to be predecessors to the new covenant of love, grace, and mercy.

You will be carried along this journey with him as we explore how good and gracious our God truly is, as demonstrated by the life, death, burial, resurrection, ascension, and teachings of God the Son. God's free gift of Christ's completed work has opened to us a better covenant with better promises, and the gift of the Holy Spirit to all who believe. This is a handbook and study guide, for old and new Christians alike, concentrating on the new life found in Jesus, through His eternal sacrifice, which brought about the wonders of the new covenant between God and His saints.

God, Time, and Eternity John Wiley & Sons

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

The cutting-edge science that is taking the measure of the universe *The Little Book of Cosmology* provides a breathtaking look at our universe on the grandest scales imaginable. Written by one of the world's leading experimental cosmologists, this short but deeply insightful book describes what scientists are revealing through precise measurements of the faint thermal afterglow of the Big Bang—known as the cosmic microwave background, or CMB—and how their findings are transforming our view of the cosmos. Blending the latest findings in cosmology with essential concepts from physics, Lyman Page first helps readers to grasp the sheer enormity of the universe, explaining how to understand the history of its formation and evolution in space and time. Then he sheds light on how spatial variations in the CMB formed, how they reveal the age, size, and geometry of the universe, and how they offer a blueprint for the formation of cosmic structure. Not only does Page explain current observations and measurements, he describes how they can be woven together into a unified picture to form the Standard Model of Cosmology. Yet much remains unknown, and this incisive book also

Is there life after death? After a tragic accident, doctors pronounced Richard Sigmund legally dead. Eight hours later, God miraculously brought him back to life on the way to the morgue. During those hours, God allowed him to experience the glorious beauty, heavenly sounds, sweet aromas, and boundless joys of heaven that await every believer. God then returned him back to earth with a mission to tell the world what he saw. You will thrill to Sigmund's eyewitness accounts of strolling down heaven's streets of gold, seeing angels playing with children, talking with Jesus, meeting with people from the Bible, as well as departed family and friends, seeing the mansions, and much more! Through Sigmund's testimony, God restored sight to the blind, hearing to the deaf, and even raised several people from the dead. Also, glimpse into the horrifying reality of "the other place"—a place where no one wants to go.

Written by an L. A. County homicide detective and former atheist, *Cold-Case Christianity* examines the claims of the New Testament using the skills and strategies of a hard-to-convince criminal investigator. Christianity could be defined as a "cold case": it makes a claim about an event from the distant past for which there is little forensic evidence. In *Cold-Case Christianity*, J. Warner Wallace uses his nationally recognized skills as a homicide detective to look at the evidence and eyewitnesses behind Christian beliefs.

Including gripping stories from his career and the visual techniques he developed in the courtroom, Wallace uses illustration to examine the powerful evidence that validates the claims of Christianity. A unique apologetic that speaks to readers' intense interest in detective stories, *Cold-Case Christianity* inspires readers to have confidence in Christ as it prepares them to articulate the case for Christianity.

The pieces are in place. The curtain rises for the final act. God is about to die. An unprecedented conspiracy of injustice, cruelty, and religious and political interests sentenced a man guilty of no crimes to the most barbaric method of execution ever devised. The victim was no mere man. Jesus was God in the flesh. The Creator of life died. How did such a thing come to be? Who were the onlookers, the players, the fakes, frauds, and heroes? What was it like in the Upper Room that night, in the shadows of Gethsemane, or in the Praetorium awaiting Pilate's verdict? What is the meaning of the last words Jesus uttered as He gasped for breath on the cross? What if all the facts you now so well could come alive in your mind and heart as a living story, rather than as a 2000-year-old ancient account? By piecing together the narrative from the perspective of the participants, John MacArthur invites you to relive the most awesome injustice in the history of man, the unparalleled triumph of the sovereignty of God, and the passion of Christ. *Is the Future Set in Stone?* CUA Press

2 Timothy 1:9 who has saved us and called us with a holy calling, not according to our works, but according to His own purpose and grace which was given to us in Christ Jesus before time began. The New Living Translation says it this way: For God saved us and called us to live a holy life. He did this, not because we deserved it, but because that was His plan from before the beginning of time—to show us His grace through Christ Jesus. God's Prophetic Grace has been given to you to finish the Race. God has strategically set you up to be in this Favored Generation, so be empowered by God's Grace and Prevailing Purpose to do what God has called you to do in this generation.

- Overview of the Aboriginal Art, focusing on the first large-scale exhibition staged by the Fondation Opale (Switzerland) The common thread running right through this work is man's link with the land, the legacy of the ancestors that still echoes in the present. It is no accident that Before Time Began is one of the expressions used by Aboriginal artists in central Australia to refer to the creation of the world, in an oneiric sense. Understanding and following this underlying bond enables the reader to explore the art's narrative content in its association with dreams and the passage of time, elements that inevitably distinguish the temporal dimension in the different societies. But it is also a way of exploring the first stirrings of contemporary art in an Aboriginal context through works made at the beginning of the 1970s in Arnhem Land and in the territory of the Papunya, as well as more recent paintings by artists living in the APY (Anangu Pitjantjatjara Yankunytjatjara). These

last examples in particular highlight the fusion between contemporary art and traditional customs, in which ancestral knowledge is fused with elements drawn from the inevitable march of progress. This book is published to complement an exhibition due to begin in June 2019. For more, visit <http://fondationopale.ch/en/index.html>

How Do We Know the Bible Is True? SBL Press

What is the origin of the universe? What was there before the universe appeared? We are presently witnessing a second Copernican revolution: neither our Earth and Sun nor our galaxy nor even our universe is the end of all things. This account of recent developments in modern cosmology introduces how the Big Bang took place and what preceded it.

This book contains my writings, other apologetics writers, top scientists, thinkers, and scholars on the topics of Ontology, Evolutionary Theory, Theology, Biogenesis, Quantum Physics, Philosophy, Science, Physics, Scientism, and Epistemology, pertaining to the core topic of Refutations to Atheistic Materialism. Crucial to consider is the idea that it is not any one refutation or data point of evidence pointing to the plausibility of there being an Eternal Causal Intelligence that creates a case for the strong possibility of such an Eternal Causal Intelligence...a Creator. Rather, it is the summation of ALL such robust data points and proofs that culminates in an over-arching and inescapable conclusion that such a Creator is not only highly plausible, and therefore worthy of serious scientific, philosophic, and theological consideration, but moreover, to reject such a conclusion, based upon the cumulative data is tantamount to an overt confession of scientific malpractice and a glaring Naturalism biases.

Do current scientific discoveries support or

contradict the story of creation in the Bible?

Does science give evidence for or against God's existence? Does it matter what you think about origins, science, and the Bible?

Does your understanding of science and creation affect your daily living or your relationship with God? In *The Creator Revealed*, author and physicist Dr. Michael G. Strauss explores these central questions about science and faith in simple and entertaining language, showing how modern scientific discoveries about the origin and design of the universe proclaim the character of God and agree with the biblical story of creation. For the Christian confronted with possible inconsistencies between faith and science, and for the skeptic who believes modern science has shown that belief in God is unnecessary, *The Creator Revealed* can demonstrate the glory, power, and wonder of God by looking at science, the Bible, and the effect that truth has on people's lives. Reconciling the truth of scripture with the truth of science can change your perspective and your life. The message of *The Creator Revealed* will expand your idea of who God is, increase your faith in him, and provide a way to share this revelation of God in creation with others.

A sociorhetorical analysis of First Corinthians
Robert H. von Thaden Jr.'s sociorhetorical analysis examines Paul's construction of sexual Christian bodies in First Corinthians by utilizing new insights from conceptual integration (blending) theory about the embodied processes of meaning making. Paul's teaching about proper sexual behavior in this letter is best viewed as an example of early Christian wisdom discourse. This discourse draws upon apocalyptic and priestly cognitive frames to increase the rhetorical force of the argument. Reading Paul's argument through the lens of rhetorical invention, von Thaden demonstrates that Paul first attempts to show the Corinthians why sexual immorality is the worst of all bodily sins before shifting rhetorical focus to explain to them how they can best avoid this infraction against the body of Christ. Features: A programmatic application of conceptual integration theory using a sociorhetorical mode of interpretation A vivid account of key aspects of conceptual integration theory and how they function in sociorhetorical interpretation A detailed application of these strategies to interpret 1 Corinthians 1-4; 6:12-7:7

When we say, "God is an omniscient God," what does that really mean? Some deny this doctrine, arguing that since God has given us "free will," it must be impossible for Him to see and know all things. But as Doug Wilson points out, if we want to worship an ignorant God, then we will become an ignorant people. This essay works through key biblical texts which demonstrate God's all-seeing, all-knowing nature. As Wilson explains what they teach us about the Gospel and our salvation, it becomes clear that the doctrine of omniscience ends not in puppet-like slavery but in the freedom which comes from serving a God whose knowledge is complete.

Here's to the caged lions, starved of action, who are sitting in church pews every weekend, disengaged, while having a deep yearning to impact eternity but not knowing how; to the ones who have been commissioned by the Creator of the universe to go and declare the Gospel message and see all of creation be redeemed. I have the amazing privilege to be a part of 420 Ministries, a missional community committed to ministering to Jesus and empowering others to live out the Gospel everyday. Everything that I've written in this book, I have learned and continue to learn through the seasons leading up to the birth of 420 Ministries. These seasons have been wilderness seasons for me, but I wouldn't trade them for the world. God has pulled me close to listen to what His heart beats for and it beats for His children. I'm going to spend my life going after all that Jesus paid for on the cross. I grew up in an amazing Christian home going to church every Sunday. This lasted for twenty years before God birthed a hunger in my own life. Most of what I had seen growing up was a form of Christianity, yet void of power. My family represented Jesus to me really well, and my mom led me to the Lord at age 11. I'm so grateful and full of honor for my family and church that I grew up in. They helped build a solid foundation of discipline and love for the Scriptures in my heart. However, they didn't know the deepest desires of my heart that God had placed there before time began. What I wanted and what I was called to was the power of the Gospel to see people encounter a living God, not good ideas or teaching to

gather around one day a week. How many Christians are out there like me that have grown up in church, were given all the answers intellectually, yet are longing to see the authentic power of God lived out every day? This is the reason I'm alive and I will spend the rest of my life adopting "bored Christians" who are called to more but just haven't seen it yet. Growing up, I didn't know what I didn't know until I saw an example before me that unlocked something in my heart that longed to be filled by God. At 21 years old, for the first time in my life, I got a glimpse into why I was alive and why I was put on this earth. The Father created me to shine bright for His glory and to come fully into His righteousness so that I could be who I truly am; bold as a lion for the kingdom of heaven. I love to discuss theology but that's not what this book is about. This book isn't for the head, it's for the heart; the heart that longs for more in this life. The Lord violated my intellect and understanding about Him so that He could get to my heart. Bill Johnson says in one of his sermons, "He'll never violate His Word, but He will violate your understanding of His Word to transform your heart." I pray that as you read this book that you would encounter the God of the Bible, and that He would awaken and set free the lion inside of you. You are called to make a difference. You were chosen and appointed to bear much fruit. You were designed to be a mirror, reflecting the glory and love of Jesus everywhere you go. May you be released and freed to do so in Jesus name.
