Countries, Peoples & Cultures Cengage Learning DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel

of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in

this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times. This must-read for lovers of Stephen King's *The Shining* will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

Etika K. Bertens Sourcebooks, Inc. African American history is the part of American history that looks at the past of African Americans or Black Americans. Of the 10.7 million Africans who were brought to the Americas until the 1860s, 450 thousand were shipped to what is now the United States. Most African Americans are descended from Africans who were brought directly from Africa to America and became slaves. The future slaves were originally captured in African wars or raids and transported in the Atlantic slave trade. Our collection includes the following works: *Narrative Of The Life* by Frederick Douglass. The impassioned abolitionist and eloquent orator provides graphic descriptions of his childhood and horrifying experiences as a slave as well as a harrowing record of his dramatic escape to the North and eventual freedom. *Incidents In The Life Of A Slave Girl* by Harriet Jacobs. Powerful by portrayal of

the brutality of slave life through the inspiring tale of one woman's dauntless spirit and faith. *Up From Slavery* by Booker T. Washington. Washington rose to become the most influential spokesman for African Americans of his day. He describes events in a remarkable life that began in slavery and culminated in worldwide recognition. *The Souls of Black Folk* by W. E. B. Du Bois. W. E. B. Du Bois was an American sociologist, socialist, historian, civil rights activist, Pan-Africanist, author, writer and editor. Contents: 1. Frederick Douglass: *Narrative Of The Life* 2. Harriet Ann Jacobs: *Incidents in the Life of a Slave Girl* 3. Booker Taliaferro Washington: *Up From Slavery* 4. W. E. B. Du Bois: *The Souls of Black Folk* [Algebra 1](#) Pearson Higher Ed At a time when Steve Jobs was only a teenager and Mark Zuckerberg wasn't even born, a group of visionary engineers and designers—some of them only high school students—in the late 1960s and 1970s created a computer system called PLATO, which was light-years ahead in experimenting with how people would learn, engage, communicate, and play through connected computers. Not only did PLATO engineers make significant hardware breakthroughs with plasma displays and touch screens but PLATO programmers also came up with a long list of software innovations: chat rooms, instant messaging, message boards, screen savers, multiplayer games, online newspapers, interactive fiction, and

emoticons. Together, the PLATO community pioneered what we now collectively engage in as cyberculture. They were among the first to identify and also realize the potential and scope of the social interconnectivity of computers, well before the creation of the internet. PLATO was the foundational model for every online community that was to follow in its footsteps. The *Friendly Orange Glow* is the first history to recount in fascinating detail the remarkable accomplishments and inspiring personal stories of the PLATO community. The addictive nature of PLATO both ruined many a college career and launched pathbreaking multimillion-dollar software products. Its development, impact, and eventual disappearance provides an instructive case study of technological innovation and disruption, project management, and missed opportunities. Above all, *The Friendly Orange Glow* at last reveals new perspectives on the origins of social computing and our internet-infatuated world.
