An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

*Saxon Math 3* Saxon Pub

Saxon math programs

produce confident students who are not only able to correctly compute, but also to apply concepts to new situations. These materials gently develop concepts, and the practice of those concepts is extended over a considerable period of time. This is called

"incremental development and continual review."

Material is introduced in easily understandable pieces (increments),

allowing students to grasp one facet of a concept before the next one is

introduced. Both facets are then

practiced together

until another one is introduced. This
