The Wrestler's Body tells the story of a way of life organized in terms of physical self-development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic. Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's identity and ideology. Young men in North India may choose to join an akhara, or gymnasium, where they subject themselves to a complex program of physical and moral fitness. Alter's first-hand description of each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society. Wrestlers feel that moral reform of Indian national character is essential and advocate their way of life as an ideology of national health. Everyone is called on to become a wrestler and build collective strength through self-discipline.

Triple talaq, or talaq-e-bidat, is one of the most debated issues in the Muslim world. From antiquity, the Muslim faith has been plagued by the portrayal of Muslim men regularly misusing this perceived "right" to divorce their wives instantly by simply uttering "talaq" thrice. The Supreme Court of India, in the landmark judgment of

Shayara Bano v. Union of India, has taken the step to declare this form of talaq unconstitutional and to strike down its practice. In Triple Talaq: Examining Faith, Salman Khurshid, who intervened to offer the court an amicus brief in the "Triple Talaq case", offers a straightforward yet comprehensive overview of this complicated issue. Explaining the reasons behind the court's decision, he dives deep into other aspects of this practice: why it is wrong; why it has thrived; what was the judicial history of this issue; what the Quran and Muslim religious leaders say about it; and what the comparative practices in other countries are. A handy guide to this landmark decision and what it means for Muslims in India, this book is written not just for the theologian, but also for the common reader.

"This book provides the first ever overview of the history and development of Islam in Afghanistan. It covers every era from the conversion of Afghanistan through the medieval and early modern periods to the present day. Based on primary sources in Arabic, Persian, Pashto, Urdu and Uzbek, its depth and scope of coverage is unrivalled by any existing publication on Afghanistan. As well as state-sponsored religion, the chapters cover such issues as the rise of Sufism, Sharia, women's religiosity, transnational Islamism and the Taliban. Islam has been one of the most influential social and political forces in Afghan history. Providing idioms and organizations for both anti-state and anti-foreign mobilization, Islam has proven to be a vital socio-political resource in modern Afghanistan. Even as it has been deployed as the national cement of a multi-ethnic 'Emirate' and then 'Islamic Republic,' Islam has been no less a destabilizing force in dividing Afghan society. Yet despite the

universal scholarly recognition of the centrality of Islam to Afghan history, its developmental trajectories have received relatively little sustained attention outside monographs and essays devoted to particular moments or movements. To help develop a more comprehensive, comparative and developmental picture of Afghanistan's Islam from the eighth century to the present, this edited volume brings together specialists on different periods, regions and languages. Each chapter forms a case study 'snapshot' of the Islamic beliefs, practices, institutions and authorities of a particular time and place in Afghanistan"--Provided by publishe
