The Sari Simon and Schuster Middle India and Rural-Urban Development explores the socio-economic conditions of an 'India' that falls between the cracks of macro-economic analysis, sectoral research and micro-level ethnography. Its focus, the 'middle India' of small towns, is relatively unknown in scholarly terms for good reason: it requires sustained and difficult field research. But it is where most Indians either live or constantly

visit in order to buy and sell, arrange marriages and plot politics. Anyone who wants to understand India therefore needs to understand non-metropolitan, provincial, small-town India and its economic life. This book meets this need. From 1973 to the present, Barbara Harriss-White has watched India's development through the lens of an ordinary town in northern Tamil Nadu, Arni. This book provides a pluralist, multi-disciplinary and inter-disciplinary perspective on Arni and its rural hinterland. It grounds general economic processes in the social specificities of a given place and region. In the process, continuity is juxtaposed with abrupt change. A strong feature of the book is its analysis of how government policies that fail to take into account the realities of small town life in India have unintended

and often perverse consequences. In this unique book, Harriss-White brings together ten essays written by herself and her research team on Arni and its surrounding rural areas. They track the changing nature of local business and the workforce; their urban-rural relations, their regulation through civil society organizations and social practices, their relations to the state and to India's accelerating and dynamic growth. That most people live outside the metropolises holds for many other developing countries and makes this book, and the ideas and methods that frame it, highly relevant to a global development audience.

This first of the three volume series highlights the intricate relationship in the handloom industry

between its culture and the various areas of sustainability. While there have been major disruptions in this age old industry, this volume presents the luxury and the entrepreneurship aspects to keep the industry moving ahead. The book contains seventeen chapters written by leading experts in the areas and discusses means to revive some of the cultures that are on the verge of closing/shutting down.

My Journey from Godavari in Rajahmundry to Mississippi in Greenville, Usa APH Publishing

This book presents a comprehensive history of handloom weaving industry in India to challenge and revise the view that competition from machine-produced textiles destroyed the country's handicrafts as claimed by historians until recently. It shows that skill-intensive handmade textiles survived the competition on a large scale, and that handmade goods and high-quality manual labour played a positive role in the making of modern India. Rich in archival material, *The Crafts and Capitalism* explores themes such as the historiography of

craft technologies; statistical work on nineteenth-century cotton cloth production trends; narratives of merchants, the social leaders, the factory-owners; tools and techniques; and, shift from handloom to power loom. The book argues that changes in the handloom industry were central to the consolidation of new forms of capitalism in India. An important intervention in Indian economic history, this book will be useful to scholars and researchers of Indian history, economic history, colonial history, modern history, political history, labour history and political economy. It will also interest nongovernmental organizations, textile historians, and design specialists.

The Crafts and Capitalism De Gruyter

Drawing on experiences from villagers in Bengal to scientists in Bangalore, this book explores the beauty, adaptability and personality of India's most iconic garment. Banerjee and Miller show why the sari has survived and indeed flourished as everyday dress when most of the world has adopted western clothing. Their book presents both an intimate portrait of the lives of women in India today and an alternative way for us

all to think about our relationship to the clothes we wear. A new bride is unable to move from her husband's motorbike as her sari comes undone. A young man wonders how he will cope with the saris complicated folds in a romantic clinch. A villager's soft, worn sari is her main comfort during a fever. Throughout the book, these and other remarkable stories place the sari at the heart of relationships between mothers and infants, mistresses and maids, designers and soap opera stars. Illustrated and rich in personal testimony, *The Sari* expertly shows how one of the world's most simply constructed garments can reveal the intricate design of life in modern India.

"A compelling account . . .

peace can be built only on justice."—Desmond M. Tutu
Tending one's fields, visiting a relative, going to the hospital: for ordinary Palestinians, such activities require negotiating permits and passes, curfews and closures, "sterile roads" and "seam zones"—bureaucratic hurdles ultimately as deadly as outright military incursion. In Palestine Inside Out, Saree Makdisi draws on eye-opening statistics, academic histories, UN reports, and contemporary journalism to reveal how the "peace process" institutionalized Palestinians' loss of control over their inner and outer lives—and argues powerfully and convincingly for a one-state solution.

Textile Traces Study Collection in weavings, and from early textiles
Washington, DC* Published to accompany an exhibition at The Textile Museum at George Washington University in Washington, DC, opening January 2022

The book features items from one of the world's foremost private collections of Indian textiles, the Karun Thakar Collection, together with key pieces from two recently united American collections, The Textile Museum and the Cotsen Textile Traces Study Collection in Washington, DC. The book and accompanying exhibition offer a unique approach to understanding Indian textile culture through reference to three distinct traditions: abstract, floral and figurative design. With essays by three leading international Indian textile curators, the publication's focus on textile ornament rather than date, region, usage, or technique provides new perspective and scholarship on this ancient artistic tradition. The book highlights the tradition's remarkable diversity, with objects ranging from folk embroideries to Mughal courtly

traded to Egypt and Southeast Asia to 18th-century chintzes exported to Europe.
