“ the best in the business, ” comes a riveting novel about the French Resistance in Nazi-occupied Paris. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST** 1941. The City of Light is dark and silent at night. But in Paris and in the farmhouses, barns, and churches of the French countryside, small groups of ordinary men and women are determined to take down the occupying forces of Adolf Hitler.

Mathieu, a leader of the French Resistance, leads one such cell, helping downed British airmen escape back to England. Alan Furst's suspenseful, fast-paced thriller captures this dangerous time as no one ever has before. He brings Paris and occupied France to life, along with courageous citizens who outmaneuver collaborators, informers, blackmailers, and spies, risking everything to fulfill perilous clandestine missions. Aiding Mathieu as part of his covert network are Lisette, a seventeen-year-old student and courier; Max de Lyon, an arms dealer turned nightclub owner; Chantal, a woman of class and confidence; Daniel, a Jewish teacher fueled by revenge; Joëlle, who falls in love with Mathieu; and Annemarie, a willful aristocrat with deep roots in France, and a desire to act. As the German military police heighten surveillance, Mathieu and his team face a new threat, dispatched by the Reich to destroy them all. Shot through with the author's trademark fine writing, breathtaking suspense, and intense scenes of seduction and passion, Alan Furst's *A Hero of France* is at once one of the finest novels written about the French Resistance and the most gripping novel yet by the living master of the spy thriller. *On War* Random House An uncensored account of the

Powerful than the Sea Growing up Black in America, Tineka Smith knew she had to behave in a certain way because of the colour of her skin. She faced restrictions imposed upon her by an unfair system; don't talk back to White people, expect to be stopped by the police and work twice as hard as your White peers. Alex Court, a White British man, moved through his life in a very different way. As someone with White and male privilege

he saw himself represented in every field of life and so he always had the confidence to excel and push forward. When Tineka and Alex first fell in love, they didn't realise how much the colour of their skin might impact on their relationship. But as time went on, and as their lives and cultures became interwoven, they recognised how dramatically different their experiences were. In Mixed Up, Tineka and Alex open up about their

interracial relationship for the first time, and with anecdotes, analysis and raw revelations, the pair attempt to navigate their new and challenging world, confronting race and relationships in the 21st century head on. A Hero of France Penguin United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future in this nationally bestselling

“ optimistic view on why collective action is still possible—and how it can be realized ” (The New York Times). Called “ one of the nation ’ s most effective communicators on climate change ” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found

that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In Saving Us, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The

Syracuse, New York, holding storytelling workshops with hundreds of displaced youth: those living in and outside of camps, as well as those adjusting to life after resettlement. Combining Badr ' s own poetry with the personal narratives and creative contributions of dozens of young refugees, *While the Earth Sleeps We Travel* seeks to center and

amplify the often unheard perspectives of those navigating through and beyond the complexities of displacement. The result is a diverse and moving collection—a meditation on the concept of "home" and a testament to the power of storytelling. *All I Really Need to Know I Learned in Kindergarten* Houghton Mifflin Harcourt Spare, haunting, utterly magnificent, and profoundly

Better Than Before Flatiron Books
This is the story of Doaa, an ordinary girl from a village in Syria, who in 2015 became one of five hundred people crammed on to a fishing boat setting sail for Europe. The boat was deliberately

capsized, and of those five hundred people, eleven survived; they were rescued four days after the boat sank. Doaa was one of them - her fiance Bassem, with whom she had fled, was not; he drowned in front of her. Melissa Fleming, the Chief Spokesperson for the UN High Commissioner for Refugees, heard about Doaa and the death of 489 of her fellow refugees on the day she was pulled out of the water. She decided to fly to Crete to meet this extraordinary girl, who had rescued a toddler when she was nearly

dead herself. They struck an instant bond, and Melissa saw in Doaa the story of the war in Syria embodied by one young woman. She has decided to tell Doaa's story - the dangers she fled, and the journey she risked to escape the conflagration in her homeland. Doaa is the face of the millions of mothers, fathers, sisters, brothers, daughters and sons who risk everything as they try to escape war, violence and death. Doaa's story will revolutionize how we see the thousands of people who die every year in search of a home.

It will squarely face one of the greatest moral questions of our age: will we let more people die in boats and trucks, or will we find a way to help them? Abundance Greystone Books Ltd "Urgently required reading." —People "Deeply affecting... Fleming brings a moral urgency to the narrative." —The New Yorker "Fleming deftly illustrates the pain of those who choose to leave Syria...and her book is ultimately a story of hope." —Newsweek Adrift in a frigid sea, no land in sight, just debris from the ship's wreckage and

floating corpses all around, nineteen-year-old Doaa Al Zamel stays afloat on a small inflatable ring and clutches two little girls—barely toddlers—to her body. The children had been thrust into Doaa's arms by their drowning relatives, all refugees who boarded a dangerously overcrowded ship bound for Italy and a new life. For days as Doaa drifts, she prays for rescue and sings to the babies in her arms. She must stay alive for them. She must not lose hope. *A Hope More Powerful Than the Sea* chronicles

the life of Doaa, a Syrian girl whose life was upended in 2011 by the onset of her country's brutal civil war. Doaa and her fiance, Bassem, decide to flee to Europe to seek safety and an education, but four days after setting sail on a smuggler's dilapidated fishing vessel along with five hundred other refugees, their boat is struck and begins to sink. This is the moment when Doaa's struggle for survival really begins. This emotionally charged, eye-opening true story that represents the millions of unheard voices of refugees who risk

everything in a desperate search for the promise of a safe future. In the midst of the most pressing international humanitarian crisis of our time, Melissa Fleming paints a vivid, unforgettable portrait of the triumph of the human spirit. character's art, chronicles the contemporary adolescence of one Native American boy as he attempts to break away from the life he was destined to live. With a forward by Markus Zusak, interviews with Sherman Alexie and Ellen Forney, and four-color interior art throughout, this edition is perfect for fans and collectors alike. [Hollow Fires](#) Profile Books A powerful, gripping novel

about the insidious nature of racism, the terrible costs of unearthing hidden truths, and the undeniable power of hope, by New York Times bestselling author Samira Ahmed. Perfect for fans of *Sadie* and *Dear Martin*. Safiya Mirza dreams of becoming a journalist. And one thing she's learned as editor of her school newspaper is that a journalist's job is to find the facts and not let personal biases affect the story.

But all that changes the day she finds the body of a murdered boy. Jawad Ali was fourteen years old when he built a cosplay jetpack that a teacher mistook for a bomb. A jetpack that got him arrested, labeled a terrorist—and eventually killed. But he ' s more than a dead body, and more than “ Bomb Boy. ” He was a person with a life worth remembering. Driven by Jawad ' s haunting voice guiding her throughout her

investigation, Safiya seeks to tell the whole truth about the murdered boy and those who killed him because of their hate-based beliefs. This gripping and powerful book uses an innovative format and lyrical prose to expose the evil that exists in front of us, and the silent complicity of the privileged who create alternative facts to their liking. Let Me Tell You My Story Balboa Press Focusing on

the intersection between globalization and migration, this powerful text traces a dynamic, contradictory process that has set the world in motion and incorporated millions of migrants into an economic market whose dimensions are unprecedented in human history. Eliot Dickinson emphasizes recent developments in global politics, such as the massive

number of refugees from wars in the Middle East who are now seeking asylum in Europe; the “Fortress Europe” mentality illustrated on the Italian island of Lampedusa; the heart-wrenching humanitarian challenge of Mexican and Central American children arriving alone in the United States; and the effects of climate change and environmental destruction on international migration. Today, with the collaboration of compliant governments and elites in the peripheral countries of the Global South, multinational corporations continue to flout regulations, destroy the environment, and take advantage of the large number of displaced, unemployed workers. While globalization is eliminating barriers between countries and making it easier for goods and capital to move around the world, the industrialized countries of the Global North are simultaneously putting up barriers to people and making it harder for them to migrate. This timely and provocative book explains how we have arrived at this paradoxical point in history and critically

examines why governments are enacting policies that protect borders instead of people.

The Audacity of Hope Simon and Schuster

“ This book comes at just the right moment. It is NOT too late if we get together and take action, NOW. ” —Jane Goodall Fears about climate change are fueling an epidemic of despair across the world: adults worry about their children ’ s future; thirty-somethings question whether they should have kids or not; and many young

people honestly believe they have no future at all. In the face of extreme eco-anxiety, scholar and award-winning author Elin Kelsey argues that our hopelessness—while an understandable reaction—is hampering our ability to address the very real problems we face. Kelsey offers a powerful solution: hope itself. Hope Matters boldly breaks through the narrative of doom and gloom to show why evidence-based hope, not fear, is our most powerful tool for change. Kelsey shares real-life examples of positive climate news that reveal

the power of our mindsets to shape reality, the resilience of nature, and the transformative possibilities of individual and collective action. And she demonstrates how we can build on positive trends to work toward a sustainable and just future, before it ’ s too late. Praise for Hope Matters “ Whether you consider yourself a passionate ally of nature, a busy bystander, or anything in between, this book will uplift your spirits, helping you find hope in the face of climate crisis. ” —Veronica Joyce Lin, North

American Association for Environmental Education “30 Under 30” “A tonic in hard times.” —Claudia Dreyguis, author of *Scientific Conversations: Interviews on Science from the New York Times* “Beautifully written and an effective antidote against apathy and inaction.” —Christof Mauch, Director, Rachel Carson Center for the Environment and Society Published in Partnership with the David Suzuki Institute. *Hope Matters* Flatiron Books In follow-up studies, dozens of reviews, and

even a book of essays evaluating his conclusions, Gerald Rosenberg’s critics—not to mention his supporters—have spent nearly two decades debating the arguments he first put forward in *The Hollow Hope*. With this substantially expanded second edition of his landmark work, Rosenberg himself steps back into the fray, responding to criticism and

adding chapters on the same-sex marriage battle that ask anew whether courts can spur political and social reform. Finding that the answer is still a resounding no, Rosenberg reaffirms his powerful contention that it’s nearly impossible to generate significant reforms through litigation. The reason? American courts are ineffective and relatively weak—far from

the uniquely powerful sources for change they often portrayed as. Rosenberg supports this claim by documenting the direct and secondary effects of key court decisions —particularly Brown v. Board of Education and Roe v. Wade. He reveals, for example, that Congress, the White House, and a determined civil rights movement did far more than Brown to

advance desegregation, while pro-rechoice activists invested too much in Roe at the expense of political mobilization. Further illuminating these cases, as well as the ongoing fight for same-sex marriage rights, Rosenberg also marshals impressive evidence to overturn the common assumption that even unsuccessful litigation can advance a

cause by raising its profile. Directly addressing its critics in a new conclusion, *The Hollow Hope*, Second Edition promises to reignite for a new generation the national debate it sparked seventeen years ago. A Hope More Powerful Than the Sea Haymarket Books " [A] landmark book . . . Solnit illustrates how the uprisings that begin on the streets can upend the status quo and topple authoritarian regimes " (Vice). A book as powerful and influential as Rebecca Solnit ' s Men Explain Things to Me, her Hope in the Dark

was written to counter the despair of activists at a moment when they were focused on their losses and had turned their back to the victories behind them—and the unimaginable changes soon to come. In it, she makes a radical case for hope as a commitment to act in a world whose future remains uncertain and unknowable. Drawing on her decades of activism and a wide reading of environmental, cultural, and political history, Solnit argues that radicals have a long, neglected history of transformative

victories, that the positive consequences of our acts are not always immediately seen, directly knowable, or even measurable, and that pessimism and despair rest on an unwarranted confidence about what is going to happen next. Now, with a moving new introduction explaining how the book came about and a new afterword that helps teach us how to hope and act in our unnerving world, she brings a new illumination to the darkness of our times in an unforgettable new edition of this

classic book. “ One
