Cazadores de Dune (Las crónicas de Dune 7)

DEBOLSILLO

Frank Herbert's Dune is the biggest-selling science fiction story of all time; the original book and its numerous sequels have transported millions of readers into the alternate reality of the Duniverse. Dune and Philosophy raises intriguing questions about the Duniverse in ways that will be instantly meaningful to fans. Those well-known characters? Paul Atreides, Baron Harkonnen, Duncan Idaho, Stilgar, the Bene Gesserit witches? come

alive again in this fearless philosophical probing of some of life's most basic questions. Dune presents us with a vast world in which fanaticism is merciless and history is made by the interplay of ruthless conspiracies. Computers have long been outlawed, so that the abilities of human beings are developed to an almost supernatural level. The intergalactic empire controlled by a privileged aristocracy raises all the old questions of human interaction in a strange yet weirdly familiar setting. Do secret conspiracies direct the future course of human political evolution? Can manipulation of the gene pool create a godlike individual? Are strife and bloodshed essential to progress? Can we know so much about the future that we lose the power to make a difference? Does reliance on valuable resources? such as "spice," oil, and water? place us at the mercy of those who can destroy those resources? When gholas are reconstructed from the cells of dead people and given those people's memories, is the

ghola the dead person resurrected? Can the exploitation of religion for political ends be reduced to a technique? Philosophers who are fans of Dune will trek through the desert of the Duniverse seeing answers to these and other questions.

La publicación de Cazadores de Dune en 2006 iniciaba el final de una saga mítica. Tras veinte años de espera, llegaba la continuación de Casa Capitular -el volumen anterior de la saga- basada en el borrador original de Frank Herbert. Al final de Casa Capitular, sexto volumen de la saga y la última novela que escribió Frank Herbert, una nave en la que viajaban el gholá de Duncan Idaho, Sheeana (la joven que podrá controlar a los gusanos de arena) y una tripulación de refugiados huyó a los confines de la galaxia, escapando de las temibles Honoradas Matres, las oscuras homólogas de la Hermandad Bene Gesserit. Aunque también las Matres habían tenido que adentrarse en el universo conocido, al ser expulsadas de su planeta original por un temible enemigo. Años después, este enemigo extraño e implacable sigue asediando la nave de Duncan Idaho. Para ser más fuertes que él, los fugitivos han tenido que recurrir a la tecnología genética del último de los maestros Tleilaxu: así podrán revivir las figuras míticas del pasado, incluidos Paul Muad'Dib y su amada Chani, lady Jessica, Stilgar, Thufir Hawat y el doctor Wellington Yueh. Cada uno de ellos deberá usar sus habilidades especiales para hacer frente a los desafíos que se les presentan. El fracaso es impensable. No solo su supervivencia está en juego: también la de la humanidad entera. Reseña: « No conozco nada que se le pueda comparar

Dans ces mémoires uniques et hybrides, qui sont aussi particulières que l'homme lui-même, Lynch se confie pour la première fois sur sa vie, toujours en quête d'une vision singulière, et sur les nombreux chagrins d'amour et épreuves qu'il a affrontés pour mener à bien ses projets peu orthodoxes, parfois avec succès, parfois sans. Les réflexions lyriques, intensément intimes et sans aucun filtre de Lynch sont précédées de sections biographiques, écrites par sa proche collaboratrice Kristine McKenna et basées sur plus de cent interviews inédites avec des membres de sa famille, des acteurs, des agents, des musiciens et des collègues dans plusieurs domaines, qui ont chacun leur propre version de ce qu'il s'est passé. Room

Traduit de l'anglais par Carole Delporte et Johan Frederik Hel Guedj *DUNE: The Graphic Novel, Book 1: Dune* Springer Brian Herbert and Kevin J. Anderson have written thirteen international bestselling novels set in this epic universe. But the wealth of material leaves many side tales or interesting ideas that can be told, hors d'oeuvres to accompany the exotic main course. Sometimes, a short story is exactly what's needed. Tales of Dune collects eight of Herbert and Anderson's Dune short stories, ranging from the period of the Butlerian Jihad, to the time of young Paul Atreides, to a story set during the events of the novel Dune, to the very end of Frank Herbert's future history. These are the missing pieces in the epic of Dune.

Architecture du livre-univers dans la science-fiction à travers cinq oeuvres

On oppose volontiers fiction et cinéma du réel, comme si le 7ème art ne pouvait que choisir entre enregistrer sur le vif ou créer de l'imaginaire. Pourtant, il existe une troisième voie, celle de la reprise, de l'adaptation, où le cinéma s'attaque à RE-présenter ce qui l'a été déjà par les historiens, les écrivains ou les réalisateurs spécialisés dans des genres de styles très accusés. Dans ce vaste domaine, les meilleurs films traitent des sujets qui semblaient avoir trouvé leur forme adéquate auparavant et ailleurs. Ainsi puisent-ils leur inspiration dans des produits déjà fort élaborés et leur mise en scène doit se révéler encore plus inventive. Cet ouvrage se propose donc de mettre en évidence l'opération esthétique nécessaire à transformer des matériaux variés en œuvres d'art cinématographiques.
